MySQL Workbench

Cannot Connect to Database Server

Your connection attempt failed for user 'admin' to the MySQL server at replica2.cq3owgyoobnr.us-east-1.rds.amazonaws.com:3306:
Unable to connect to
replica2.cq3owgyoobnr.us-east-1.rds.amazonaws.com:3306

Please:

- 1 Check that MySQL is running on address replica2.cq3owgyoobnr.us-east-1.rds.amazonaws.com
- 2 Check that MySQL is reachable on port 3306 (note: 3306 is the default, but this can be changed)
- 3 Check the user admin has rights to connect to replica2.cq3owgyoobnr.us-east-1.rds.amazonaws.com from your address (MySQL rights define what clients can connect to the server and from which machines)
- 4 Make sure you are both providing a password if needed and using the correct password for replica2.cq3owgyoobnr.us-east-1.rds.amazonaws.com connecting from the host address you're connecting from
